

Videographer (Prague-Based)

iVigee, a leading pharmacovigilance services and technology company focused on creating simple, powerful, and elegant drug safety solutions that span the entire drug safety life cycle, is seeking a new team member for the position of **Videographer based in Prague**, Czech Republic who can shoot, edit, and produce high-quality video content to support our brand, digital channels, and client-facing initiatives. This role is execution-focused but requires strong collaboration skills: the videographer will work with the Marketing Director on content outlines, prepare video subjects for recording, and advise on setup and equipment to ensure polished, professional results.

iVigee: Simple. Powerful. Elegant.

RESPONSIBILITIES:

- Collaborate with the Marketing Director to translate campaign outlines into compelling video content.
- Work with video subjects (staff, clients, partners) to brief, guide, and prepare them for comfortable and confident on-camera delivery.
- Plan, shoot, and edit engaging video content for digital platforms (social media, website, presentations, campaigns).
- Manage all aspects of video production, including lighting, sound, framing, and motion graphics.
- Assess the current production setup and provide recommendations on equipment, software, and recording environments needed to raise production quality.
- Handle both short-form (snappy edits, reels, ads) and long-form (interviews, explainers, case studies) formats.
- Ensure timely delivery of polished, high-quality assets.
- Maintain and organize video assets and equipment.

REQUIREMENTS:

Location: based in Prague (or able to work locally on a regular basis).

- Experience: 3+ years of professional videography and editing experience within agencies, production companies, or in-house creative teams.
- Strong technical knowledge of cameras, lighting, and sound equipment, plus the ability to advise on optimal setups.
- Proficiency in Adobe Premiere Pro, After Effects, DaVinci Resolve, or equivalent editing software.
- Ability to create motion graphics and integrate brand assets.

Simple. Powerful. Elegant.

Pharmacovigilance products and services that
span the entire drug safety life cycle!

- Strong interpersonal skills to put non-professional video subjects at ease and help them deliver effectively on camera.
- Comfortable running shoots independently, while also working in alignment with broader brand/marketing strategy.
- Excellent communication skills.

This is an outstanding opportunity to join the fearless team of trustworthy professionals enabling innovation in a sustainable manner.

If you are interested, please feel free to submit your CV to HR@ivigee.com.
